DRÄGER EEBA CF10

Compressed air - Constant Flow 10 minutes
Collection from: Element Safety - Sheffield

Price: £50 + VAT
Duration: 1 Week

DRÄGER EMERGENCY ESCAPE BREATHING APPARATUS

The Dräger Saver CF constant flow Emergency Escape Breathing Apparatus allows safe, effective and uncomplicated escape from hazardous environments.

Simple to put on and featuring automatic operation, this hood-based, constant flow breathing device can be used with minimal training.

In emergency situations, conditions can deteriorate rapidly.

The air is suddenly filled with smoke or toxic fumes and rapid escape is the only available option.

The Dräger Saver CF is highly visible and was designed to be suitable even for people with spectacles or facial hair.

When opened, the Saver CF is automatically activated and begins feeding a continuous supply of breathing air to the hood.

The Saver CF gives the wearer the precious additional time needed to exit the area safely.

MORE...

The Dräger Saver CF utilises a simple, fail-safe reducer system with excellent flow characteristics, providing a consistent rate of air flow until the cylinder is completely empty.

An alarm whistle sounds before the air supply is exhausted. The flame-retardant hood incorporates a large visor for maximum peripheral vision.

A transparent window on both the soft bag lets you check the cylinder pressure gauge easily without unpacking the unit, and very little service or maintenance is needed
